

Children's
Hospital of
Michigan
Foundation

Transforming Together.

2018 IMPACT REPORT

OUR THREE PILLARS

COMMUNITY BENEFIT

Innovative community, patient and family support and wellness programs that improve the health of children.

PEDIATRIC RESEARCH

Groundbreaking advances in the development of new techniques in pediatric medical care and the treatment of diseases.

MEDICAL EDUCATION

Advanced information, techniques and training in order to provide the best care for children.

OUR CURRENT FOCUS AREAS

Nutritional Wellness

Injury Prevention

Abuse & Neglect

Mental Health

Oncology & Cardiology Research

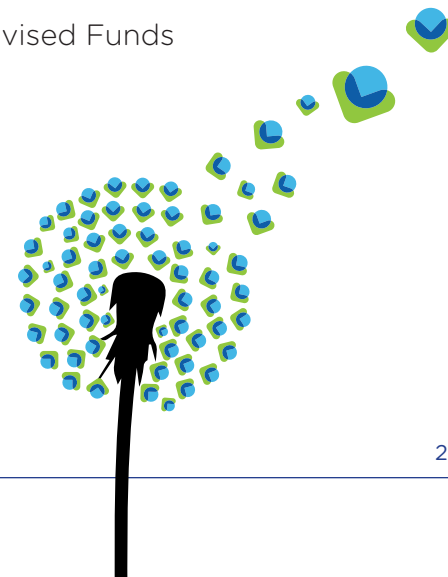

Transformation is a dynamic expression of life itself. It's a vibrant promise that bridges who we are with what we can be. It's a journey that starts with caring, feeds on hope, and flourishes through an uncompromising resolve to help change lives for the better. Transformation dynamically defines the achievements we're sharing with you for the year 2018, and the ever-transforming momentum that will strengthen as we move forward and create a framework for continued growth.

Transforming Together.

A photograph of a man and a young girl standing next to a large dog mascot. The man is wearing a purple jacket and a green bow tie. The girl is wearing a white lab coat and a purple cap. The mascot is a large, brown dog wearing a green shirt and a black belt. They are all smiling and appear to be at a sports event. The background shows other people and stadium seating.

OUR MISSION

**The Children's
Hospital of Michigan
Foundation supports
pediatric research,
education, community
benefit programs,
and other initiatives
that improve the
health and wellness
of children.**

A MESSAGE FROM THE PRESIDENT

2018 was a remarkable year of growth and development for our Foundation.

Thank you for taking the time to review the 2018 Impact Report for the Children's Hospital of Michigan Foundation.

The entrepreneurial spirit of the Foundation has allowed for growth and expansion to new heights. This development is evident in the relationships we nurture and the creation of over 40 partnerships that increased our footprint within Southeastern Michigan and beyond. This provided the ability for the Foundation to widen our impact into Macomb, Oakland and Washtenaw counties.

The Foundation's five areas of focus continue to open opportunities and guide us as we develop new partnerships, raise funds collectively, continue granting funds and advocate for children's health and wellness.

With a keen understanding of the urgency and impact of wellness for children, a key area of focus has been mental health. We are not alone in our commitment to children and mental health, which has been formative in many new partnerships and activities that support a collective approach. In 2018, we created the Michigan Advocates for Behavioral Health made up of mental health service providers throughout the state. To further advance our focus on mental health, we will hold our first annual Child and Adolescent Behavioral Health Summit in May of 2019.

Our continued path as a community foundation for children also included an increase in fundraising. 2018 was a year of growth that was directly fueled through funds from events as well as through planned legacy giving and with the creation of donor-advised funds.

Taking a lead on innovative ways to raise funds and develop strategic partnerships has included unique relationships with organizations and families such as the Jamie Daniels Foundation and the Healing Kids Foundation.

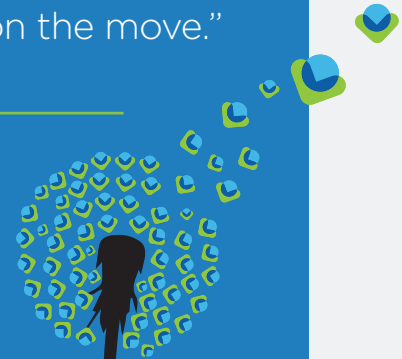

We look forward to 2019 with clear objectives for continued expansion and growth. We welcome opportunities that fuel our ability to make children's wellness a key objective and look forward to a year of progress and advancement of our brand and our mission. Thank you for your part in our success.

LAWRENCE J. BURNS
President and CEO
Children's Hospital of Michigan Foundation

“

“I am proud to be part of an organization that is now a powerfully impactful advocate for children and clearly a Foundation on the move.”

LAWRENCE J. BURNS
President and CEO
Children's Hospital of
Michigan Foundation

moving forward.

A YEAR IN REV

A REMARKABLE YEAR OF TRANSFORMATION AND ENDLESS POSSIBILITIES.

A Foundation that takes flight with an entrepreneurial spirit.

The Children's Hospital of Michigan Foundation had a year fueled by the power of a creative and collaborative approach. We continue to grow while we expand our reach and impact as a Foundation that takes flight with an entrepreneurial spirit. This is only possible through a fully engaged board of trustees, staff, donors and community partners.

Our sustainability and growth is a direct result of diverse initiatives all working towards common goals and objectives. The strength of the work we do and our message has been actualized through outreach in unique ways, including national coverage in the 2018 World Series, targeted initiatives that move the needle on addiction and mental health through partnerships with organizations like the Jamie Daniels Foundation, as well as increased community engagement through speaking opportunities such as the Kevin's Song Conference. The possibilities are endless with the involvement of like-minded organizations, corporations, foundations and individuals.

2018 was a year of developing relationships and ensuring that our process and outreach had a system that allows for continuous contact with key stakeholders. We made an investment to begin upgrading our IT and integrating systems to provide more efficiency in communicating with our donors and grantees.

Our progress in 2018 has set the framework that supports an entrepreneurial spirit. A spirit that will continue to take us progressively forward as the leading advocate, facilitator and convener on behalf of children and their families.

Inaugural Legislative Round Table at the Detroit Athletic Club.

SUCCESSFULLY HELD TWO LEGISLATIVE ROUNDTABLES

Children's Hospital of Michigan Foundation hosted two Legislative Roundtables in 2018 as a platform to introduce the Foundation to 27 state and county officials. This open forum provided an opportunity to solicit their advice and support, as well as build relationships with numerous local non-profit organizations serving children in their districts, several of which have received grants and other support from the Foundation.

VIEW

LAWRENCE J. BURNS

MATT FRIEDMAN
Board Chair

2018

\$2 MILLION DOLLAR ESTATE GIFT WILL HAVE A LASTING EFFECT ON THE CHILDREN IN OUR COMMUNITY

In 2006, Joseph and Marion Schasney made their first gift to the Foundation, a planned donation from a Charitable Annuity Trust that was paid out in 2018. This trust paid the Schasneys an income for the remainder of their lives and then made a gift of \$130,000 for pediatric research. After their initial gift, the Schasneys established an additional bequest to the Foundation through their living trust. This substantial bequest will tremendously impact the lives of children.

BOW TIE FEATURED ON RECORD-BREAKING WORLD SERIES

Children's Hospital of Michigan Foundation hit a home run for national coverage and outreach in the Bow Tie Cause contest! The top 7 non-profit bow ties were judged and selected by receiving the most online votes. Our bow tie came in second place and was worn by MLB announcer, Ken Rosenthal, during game #3 on the national stage in the record-breaking World Series game, the longest game in history lasting 18 innings, 7 hours and 20 minutes. We received great social media coverage through Ken Rosenthal's one million followers!

“

To meet the fast-changing health needs of the children in our community and beyond, our Foundation has transformed. 2018 was a year of growth fueled by knowledge, understanding and a collective approach. We continue to build new and diverse relationships that expand our ability to be a force change for children and their families.

MATT FRIEDMAN, Board Chair
Children's Hospital of Michigan Foundation

Working with our community to make an impact on key issues for children and their families.

The Children's Hospital of Michigan Foundation has an informed understanding of the pulse of our community. Our grant applications are directly related to our pillars and focus areas which gives us an insight on the work that's being done in our community and where we are needed most.

We become an active participant with the grantees to advance the impact of our focus areas and pillars. We are an invested partner and provide resources that become a collaborative process directly meeting the needs in our community.

151

GRANTS WERE AWARDED IN 2018

The Children's Hospital of Michigan Foundation fulfills our mission through awarding grants to organizations that provide services and programs to the children in our communities.

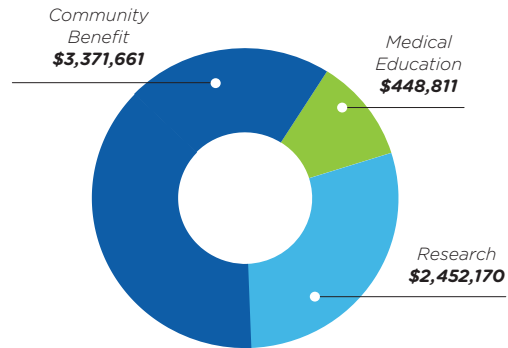

Our 2018 funding was awarded to carefully selected groups of applicants working to support a collaborative approach to advancing health and wellness with a focus on the Foundation's three pillars - Community Benefit, Pediatric Research and Medical Education, and five focus areas - Nutritional Wellness, Abuse & Neglect, Injury Prevention, Mental Health and Oncology & Cardiology Research.

As we grow and evolve, we form new community partners and grant recipients while continuing to support Children's Hospital of Michigan and affiliates. With over 40 partners, we expand our reach with our collective strength allowing for a broader impact on the well-being of more children and families in Michigan and beyond.

Through Kids Kicking Cancer, children are taught to use martial arts as a therapeutic coping mechanism.

Precision Oncology in a Multi-Institutional, Multi-Ethnic Cohort of Children with High Risk Malignancies – Awarded \$592,101 Over Three Years

There is no goal more important and urgent than improving the outlook for young cancer patients. This award will help fund an ethnically-diverse study to further understand responses to cancer immunotherapy treatments in minority children. The University of Michigan and Children's Hospital of Michigan in collaboration with the partners listed to the left will work together on this noble endeavor.

\$592,101

“

“Every year 16,000 new cases of pediatric cancer are diagnosed in the U.S. Over the last 40 years, with scientific progress, we are now able to cure 70-75% of these children. However, the Foundation's support is extremely critical in the development of new, high-risk research studies to develop preliminary data to help the remaining 25-30% of patients that do not respond to current treatment.”

DR. RAJEN MODY, M.D.
Director of Pediatric Hematology, Oncology & Bone Marrow Transplant, University of Michigan Hospital

Brilliant Detroit's newly opened Springwells location offers education, health and family support for families and kids.

\$50,000

Education transforms lives. Brilliant Detroit coordinates programs and workshops that help kids ages 0-8 to be "school ready", healthy and stable. This grant enabled us to renovate a new location in Detroit's Springwells neighborhood to impact child health and nutrition, as well as addressing the interpersonal and cultural influences that impact the social conditions in which children live.

Through grant support from the Foundation, youth are finding the mental health support they need at the Boys & Girls Clubs of Oakland & Macomb Counties.

\$70,000

The Connect Today! program at the Boys & Girls Clubs of Oakland and Macomb Counties addresses the behavior and anxiety challenges that affect many of our youth today. The program focuses on coping skills and family support. Thanks to this grant, Connect Today! will launch this delivery model by supporting two licensed, professional therapists and a program coordinator to provide therapy sessions for families in Oakland and Macomb Counties.

Beaumont

Justin Follebout, LMSW, Social Worker Beaumont Teen Health Center - River Rouge and former student Emmanuel, who benefited greatly from the clinic.

\$100,000

Children from neighborhoods affected by poverty, crime, and substance abuse typically face more serious and traumatic health issues with fewer treatment options. Beaumont's seven school-based health centers serve the medical needs of this high-risk youth population. The goal of this "challenge" grant, in partnership with Beaumont and Children's Hospital of Michigan Foundation, is to raise \$50,000 each in efforts to support responsive and comprehensive behavioral health services at the Beaumont Teen Health Center - River Rouge.

"The grant funding we received will allow us to provide social work, mental health counseling and therapy to the students of River Rouge High School as well as students throughout Southeastern Michigan ages 10-21. The funding will provide the ability to assess and treat these students as well as focus on mental health and wellness."

JEFF COOK
Director of Child and Adolescent Health Center - Beaumont Health Center

FitKids 360

A program supporting the health and nutritional wellness of children in Michigan.

THE FOUNDATION PROUDLY SUPPORTS THE FITKIDS 360 PROGRAM AND RECOGNIZED KRISTA SIDDALL FOR THE 2018 SPIRIT OF DETROIT AWARD.

The Spirit of Detroit Award recognizes people, events and organizations for their outstanding achievements and services to the citizens of Detroit.

“

“FitKids 360 has grown leaps and bounds in the last few years. We continue to have a waitlist of 200+ children, and offer numerous supplemental programs. I am extremely honored and humbled to have received this award.”

KRISTA SIDDALL
*Director of Programming and Operations
at Wayne Children's Healthcare Access Program*

40 Community Partners

We take the lead in developing opportunities to effect change for children in Michigan and beyond with over 40 community partners. We are proud of the company we keep and know that it is essential to children's wellness. In fact, it is the foundation for growth and our expanded outreach with like-minded community partners. As a collective, we can continue to create innovative programs and services that improve the well-being of our children.

Dr. Jeffrey Taub posed for a photo with former patients at the annual Cancer Survivors Day - A Celebration of Life.

Audrey bravely shared her battle with self harm in a video produced for the Jewish Federation's "We Need to Talk" campaign on mental wellness.

Students from Detroit Cristo Rey High School received eye screenings and glasses were purchased for the students who required them.

Students at Loyola High School learned about nutritional wellness in their newly renovated kitchen.

Innovative events that lead the way into the future.

Signature events are essential for outreach and fundraising. They afford us the opportunity to create innovative approaches for brand awareness and relationship building. We know that every event adds to the richly diverse audiences that become introduced to the work we do and the company we keep.

Taking the lead on children's wellness is only possible when committed partners move their passion forward. We've had the advantage of creating unique events and programs with a committed community that is active at every level.

In 2018, the Foundation benefited through strong supporters that are truly dedicated to the wellness of our children. Leaders For Kids is an advisory group of the Foundation comprised of emerging leaders from Southeast

Michigan that have put their passion into action with a targeted focus on the health and wellness of children. These emerging leaders serve as ambassadors, raising awareness for the Foundation's critical mission and by raising funds with their two signature events – Summer Recess and Cheers for Children.

Other events that have continued to grow in popularity and awareness included the Charity Preview and Derby for Kids. Each has their own appeal, from getting your engines started, to gathering around the starting gate. There has been something for everyone to enjoy while raising funds to advance the health and wellness of children overall and align with our three pillars – Community Benefit, Pediatric Research and Medical Education.

Active and focused partners dedicated to children’s well-being.

The Children’s Hospital of Michigan Foundation is a committed partner with Children’s Hospital of Michigan supporting numerous programs, research efforts and education. The outcomes are a direct result of the combination of expertise and passion to help children by providing our partners with the resources to support child health advocacy and outreach, pediatric medical research and medical education.

As the largest recipient of the Foundation’s grants, together we set an example of what can be done with a focused commitment to support programs that advance our mission to impact the health and wellness of children and their families.

CARING FOR CHILDREN TOGETHER

A RELATIONSHIP WHERE EDUCATION TRANSFORMING

Psychology intern students with their advisor from CHM, Dr. Jill Meade.

CHILDREN’S HOSPITAL OF MICHIGAN PSYCHOLOGY INTERNSHIP

Medical health education and mental health came together in a grant that was awarded in 2018 which worked collectively with Children’s Hospital of Michigan. This program provided the highest quality training experiences to interns at CHM that not only served the mental health needs of patients and the community, but enhanced the field of pediatric Health Service Psychology. The psychology internship supported the DMC’s “Path to the Top” mission to become one of the top 15 academic health systems.

As we grow and evolve, we form new community partners and grant recipients while continuing to support Children’s Hospital of Michigan and affiliates.

AND INNOVATION UNFOLD

CHILDREN'S HEALTHCARE

These two children are taking advantage of the Interactive Art Experience in the new lobby at Children's Hospital of Michigan.

INTERACTIVE ART EXPERIENCE

From top to bottom, the Children's Hospital of Michigan is designed especially for kids. Through the support of donors, the Ashok & Ingrid Sarnaik Interactive Art Experience was installed in the new lobby at Children's Hospital of Michigan in the fall of 2018. The art experience provides a positive distraction while also bringing moments of pleasure and delight to patients, families and visitors for years to come.

“

The Interactive Art Wall was intended to be a fun distraction for children in what can be a scary place; it has become all of that and more. The Art Wall is now a gathering place where young patients become friends, parents play with their little ones and a space that brightens the day of physicians and staff. I am incredibly grateful for all of the sponsors, advocates and our partners at the Children's Hospital of Michigan Foundation for making this magical Art Wall possible for our patients and their families.

FUNDRAISING PARTNERSHIPS

One life lost to addiction is one life too many.

The Children's Hospital of Michigan Foundation is a committed partner with the Jamie Daniels Foundation to expand outreach, support fund development initiatives and create innovative approaches to make addiction and mental health a public priority. The Jamie Daniels Foundation provides education, resources, guidance and support to people battling drug addiction so that lives can be saved and healing can begin within families.

We activate our collective resources and support their Foundation with marketing and management resources. Using our collective and innovative spirit, 2018 became an action-packed year to a great partnership with the Jamie Daniels Foundation.

We joined forces with Detroit Red Wings "Hockeytown Cares" community impact platform, to launch a limited-edition Mickey Redmond and Ken Daniels bobblehead fundraiser. The success of the bobbleheads gave us national coverage and the funds raised will help us create a future where all children and young adults have access to the support necessary to make recovery possible.

Lawrence J. Burns, Lisa Daniels-Goldman, Arlyn Daniels and Ken Daniels gather around for a photo during the June 2018 announcement.

“

“Jamie’s legacy should be to save lives and make our community and our nation more aware of what happened to him, which this partnership with the Children’s Hospital of Michigan Foundation will allow.

KEN DANIELS

Over the past two years, we have granted over **\$1 Million** dollars towards mental health & research programs.

Last year, we continued to actively work with key partners to understand, discuss and bring awareness to the growing need and concerns about the stigma surrounding mental illness. We have brought our partners in education, healthcare, research and community together to further the discussion with a path of action that removes fear and starts the conversation.

our focus on

Mental Health

Using our collective strength to give children the voice and the support they need.

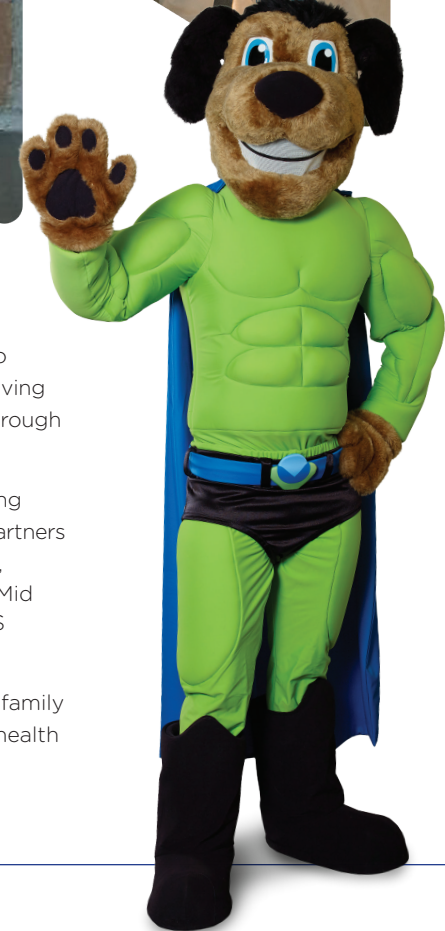

COREY
Little Champion

“

I think the Little Champion program is such a nice thing for kids and families that have had to deal with a lot of issues, and I would like to make a contribution so that other kids can have this experience.

ANTHONY
Parent of Little Champion

Recognizing children who are truly champions.

The Little Champion program hand picks children who have overcome major obstacles in their young lives, giving them an outlet to escape some of those challenges through various activities, events and other opportunities.

In 2018, we provided 47 Little Champions life-changing experiences on and off the field with a variety of key partners such as Michigan State University, Detroit Red Wings, Broadway in Detroit, Racing for Kids, Detroit Tigers, Mid American Conference Championships and the NAIAS Charity Preview.

We are proud to create a support system along with family members and friends, improving and advancing the health and wellness of our children.

EDUCATION

Become an active participant in the health and well-being of our children.

The Children's Hospital of Michigan Foundation's mission is to raise funds to annually grant approximately \$6 million to organizations that strengthen our community partnerships and the services they provide. Passionately driven toward the advancement of children's health, the Foundation has identified the most direct and impactful way to effect change.

The work that is being done is not possible without the generosity of donors. Our focus areas and pillars create a portfolio of options for giving that can be aligned with each donor's objectives. The options can be designed to assure funds are directed by choice in a way that allows for the best outcome for both the donor and the Foundation's work.

How donations are made are as diverse as the donors. Our philanthropy team works with donors to review the best approach to how and where their contributions will be placed. In fact, we recommend that donors include their legal, tax, and financial advisors in planning to select what is the best approach.

Join us in changing the lives of the children in our community by attending our signature events, volunteering or donating:

Call (313) 964-6994, email staff@chmfoundation.org, or visit chmfoundation.org.

Donor-Advised Funds

A great way to transform the lives of children and their families for the better.

A Donor-Advised Fund or DAF is a special fund that you can establish with Children's Hospital of Michigan Foundation. In exchange for your charitable contribution, you receive an immediate tax deduction and then recommend grants from the fund over time. You can contribute to the fund as often as you wish. You can recommend grants from the fund to your favorite charities that have a focus on children's health and well-being.

5 SIMPLE STEPS ON HOW A DONOR-ADVISED FUND WORKS

1 
DONOR

  
CASH STOCK ASSETS

You make an irrevocable gift of personal assets, including cash, stock, or other assets that CHMF accepts.

2 
IMMEDIATE TAX DEDUCTION

You immediately receive the maximum tax deduction that the IRS allows.

3 
RECOMMEND GRANTS AS AN ADVISOR

You choose the name of your donor-advised fund as well as who the advisors are and any successor advisors will be.

4 
OPPORTUNITY FOR CONTRIBUTION GROWTH

Your contribution is placed into your new DAF, invested with other CHMF assets where it can grow tax-free over time. You can make additions to your fund at any time.

5 
RECOMMEND GRANTS AT ANY TIME

You can recommend grants from your fund to qualified charities that have a focus on children's health and well-being at any time.
